

UNIVERSITY OF HARTFORD

Direct educational expenses are charges which are assessed and billed by the Bursar's Office based on a student's enrollment and housing status. These charges, along with estimated indirect educational expenses, comprise a student's estimated total cost-of-attendance or budget.

Additional information on direct and indirect costs are outlined on the reverse side.

*Below is an estimated cost-of-attendance for an **on-campus** undergraduate student in full-time attendance.*

Incoming Students: For purposes of establishing an estimated total cost-of-attendance, room and board figures for on campus living are based on double occupancy in Dorms A-F and the 7 Day All Access Meal Plan. Off-campus costs are estimated from local market research and the 7 day All Access Meal Plan rate. If living with parent or relative, the budget will not include room and will assume board at half the 7 Day All Access Meal Plan rate.

Returning Students: For purposes of establishing an estimated total cost-of-attendance, room and board figures for on campus living are based on double occupancy in the Village and the 5 Day All Access Meal Plan. Off-campus costs are estimated from local market research and the 5 day All Access Meal Plan rate. If living with parent or relative, the budget will not include room and will assume board at half the 5 Day All Access Meal Plan rate.

The estimated indirect educational expenses comply with the cost-of-attendance provisions contained within the Higher Education Act of 1965 as amended through October 2008; Section 472.
